-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 04 June 2007.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.

DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of claims 1-4 and 6 in the reply filed on 06/04/2007 is acknowledged.

It is to be noted that there is a typographical error in the Office Action dated 05/22/2007. Group III consists of claims 1-4 and 6 but not claims 1-5 and 6.

Claim Rejections - 35 USC § 102/

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1, 4 and 6 are rejected under 35 U.S.C. 102(b) as being anticipated by Messina (5,285,768).

Regarding claim 1, Messina teaches a device capable of being used for cutting side edges of sheet-form material for biding comprising:

a tool body 12;

one cutting element 22 fixed to the tool body and defining one cutting

edge; and

one notching segment 24.

See Figs. 1-2.

Art Unit: 3724

Regarding claim 4, a plurality of cutting edges is best seen in Figs. 1-2.

Regarding claim 6, two notching elements 24A disposed opposite to each other are best seen in Fig. 2.

4. Claims 1 and 2 are rejected under 35 U.S.C. 102(b) as being anticipated by Dietz (5,323,670).

Regarding claim 1, Dietz teaches a device capable of being used for cutting side edges of sheet-form material for biding comprising:

a tool body 11;

one cutting element 22 fixed to the tool body and defining one cutting edge 35; and

one notching segment 33.

See Fig. 1.

Regarding claim 2, the notching element being ground out of the cutting element 12 is best seen in Fig. 1.

It is to be noted that claim 2 is a product-by-process claim and the product itself does not depend of the process for making it.

Claim Rejections - 35 USC § 103

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Art Unit: 3724

6. Claim 3 is rejected under 35 U.S.C. 103(a) as being unpatentable over Messina (5,285,768) in view of Curtsinger et al. (5,896,800), hereinafter Curtsinger.

Messina teaches the invention substantially as claimed except for the cutting element being soldered to the tool body.

Curtsinger teaches securing a cutting member to a tool body by soldering. See col. 5, lines 52-62.

Therefore, it would have been obvious to one skilled in the art at the time the invention was made to secure the cutting member of Messina to the tool body by soldering as taught by Curtsinger.

Response to Arguments

7. Applicant's arguments with respect to claims 1-17 in the Remarks filed on 04/12/2005 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not

Art Unit: 3724

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Phong H. Nguyen whose telephone number is 571-272-4510. The examiner can normally be reached on Mon-Fri.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Boyer Ashley can be reached on 571-272-4502. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
